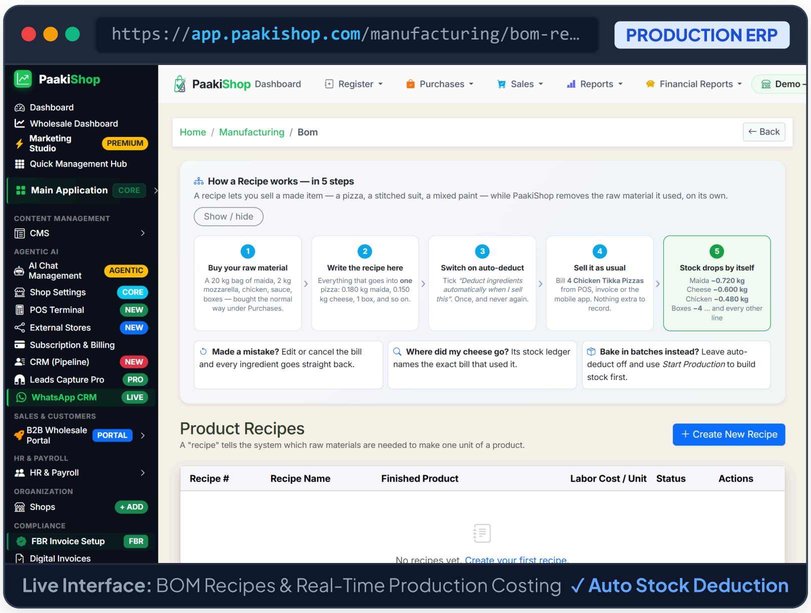
Sample Recipe: Premium Emulsion (100 Gallons)

ACTIVE BOM

Raw Material	Required Qty	Unit Cost	Total Cost
Titanium Dioxide (White)	40 Kg	Rs. 850	Rs. 34,000
Acrylic Polymer Resin	120 Liters	Rs. 420	Rs. 50,400
Defoamer & Biocide Additive	5 Liters	Rs. 1,200	Rs. 6,000
1 Gallon Empty Printed Tin	100 Pcs	Rs. 180	Rs. 18,000
		Calculated Cost Per Gallon:	**Rs. 1,084**



How a Recipe works — in 5 steps

A recipe lets you sell a made item — a pizza, a stitched suit, a mixed paint — while PaakiShop removes the raw material it used, on its own.

1. **Buy your raw material** A 20 kg bag of maida, 2 kg mozzarella, chicken, sauce, boxes — bought the normal way under Purchases.
2. **Write the recipe here** Everything that goes into **one** pizza: 0.180 kg maida, 0.150 kg cheese, 1 box, and so on.
3. **Switch on auto-deduct** Tick *"Deduct ingredients automatically when I sell this"*. Once, and never again.
4. **Sell it as usual** Bill **4 Chicken Tikka Pizzas** from POS, invoice or the mobile app. Nothing extra to record.
5. **Stock drops by itself** Maida **−0.720 kg** Cheese **−0.600 kg** Chicken **−0.480 kg** Boxes **−4** ... and every other line

Made a mistake? Edit or cancel the bill and every ingredient goes straight back.

Where did my cheese go? Its stock ledger names the exact bill that used it.

Bake in batches instead? Leave auto-deduct off and use *Start Production* to build stock first.

How a Recipe works — in 5 steps

A recipe lets you sell a made item — a pizza, a stitched suit, a mixed paint — while PaakiShop removes the raw material it used, on its own.

1. **Buy your raw material** A 20 kg bag of maida, 2 kg mozzarella, chicken, sauce, boxes — bought the normal way under Purchases.
2. **Write the recipe here** Everything that goes into **one** pizza: 0.180 kg maida, 0.150 kg cheese, 1 box, and so on.
3. **Switch on auto-deduct** Tick *"Deduct ingredients automatically when I sell this"*. Once, and never again.
4. **Sell it as usual** Bill **4 Chicken Tikka Pizzas** from POS, invoice or the mobile app. Nothing extra to record.
5. **Stock drops by itself** Maida **−0.720 kg** Cheese **−0.600 kg** Chicken **−0.480 kg** Boxes **−4** ... and every other line

Made a mistake? Edit or cancel the bill **Where did my cheese go?** Its stock ledger **Bake in batches instead?** Leave auto-
